

Europe More Unsettled Than Before Munich Pact Says London Press

GERMANY SAID PLANNING TO BREAK POLAND

Nazis Thought To Dismember Poland To Reach Russia

London, Nov. 24.—Germany now plans to dismember Poland as the prelude to dismemberment and colonization of Soviet Russia, the Manchester Guardian (Liberal) said editorially today in comment on Prime Minister Chamberlain's visit to Paris.

The paper questioned whether the contemplated international guarantee for the Czechoslovak remnant state was "no more than a pious invention to conceal the reality that Hitler's designs are already created by the Munich settlement."

"Mr. Chamberlain's visit to Paris established nothing but a new scheme, entertained both here and in Paris, with regard to the European curtain," the editorial said. "It is now apparent, plain to all French and British governments as well as to unofficial observers—that the Munich settlement is not a settlement at all, that it leaves Europe in general, and central and eastern Europe in particular, more unsettled than before."

QUESTIONS UNANSWERED

"The complete impotence of the western powers in central Europe has been exposed, and the international community, where their representatives could not do anything but take refuge in silence, are now asking: What security is guaranteed? Czech independence or the Czech frontier? Or what or how much is to be done to conceal the realities of the situation created by the Munich settlement?"

It is evident that for Germany the annexation of Sudetenland and its mutilation and subjugation are not the end, but the beginning.

POLITICAL OPPORTUNITY

"That German-Polish 'friendship' was nothing more than a piece of political propaganda is now clear to all along. The end of this 'friendship' would now seem to be approaching."

The Nazis have been bitterly disappointed that their plans for a common frontier with Hungary have not been realized. The Germans and they are exercising strong terrorist pressure on the inhabitants of Carpathian Ruthenia as well as on the Poles to force Poland into the Polish-Lithuanian occupation.

"Polish and Hungarian agitators enter Poland from time to time, carry out kidnappings and terrorist actions, and so create a state of tension and uncertainty which, so it is believed, make the present status of Carpathian Ruthenia impossible."

CRISIS FEARED

"Polish troops are concentrated in the Sudetenland. Their intentions are that a dangerous German-Polish crisis is at hand. But apart from the Sudetenland, the Poles are now seriously planning to treat Poland as they treat Czechoslovakia and to promote a similar policy."

"This would mean the dismemberment of Poland just as the Sudetenland means the dismemberment of Czechoslovakia."

"The German military in Poland is not very formidable, but it will be able to use it effectively. The establishment of an independent Ukraine within the present frontier of Poland will give the Nazis an opportunity to carry out familiar plans which Hitler has for the dismemberment and colonization of Poland."

"They therefore seem that a German-Polish conflict could not occur without involving Russia. They also believe that the real impulsion of Russia during the recent crisis, are convinced that Russia is incapable of going to war against a great power."

Steady Decline In Intelligence Of M.P.'s, Claim

Montreal, Nov. 24.—Canada's system of government had resulted in "a steady decline in intelligence of members of Parliament," during the last 30 years, said Gratian O'Leary, editor of the Ottawa Journal, who added that most men were educated especially for parliament, he said, whereas in Canada, the man who got the most votes was elected in each riding. This constituted a dangerous trend for public life, harmful to democracy, he said.

Harold Ickes Coats New Word: Encieble

Washington, Nov. 24.—Harold Ickes, secretary of the interior, coined a word yesterday. He used it as an adjective in describing Eugene Talmadge, former governor of Georgia, as "encieble." Mr. Talmadge, he said, was "one who was 'so-and-so' has gotten into such a stit," was taken aback, "certainly was taken in," he said.

VIOLENT GALE KILLS 9 AND INJURES MANY

Seaport Property Severely Damaged in English Channel Storm

LONDON, Nov. 24.—A violent gale killed nine persons, injured scores, smashed thousands of dollars worth of shipping property and battered ships off the shores of Great Britain Wednesday.

Most shipping sheltered port, but the Prinses Beatrix, a Dutch freighter, and the Steamer Chianti, laden with Pernod, rum, and tobacco, were among passengers who crossed the English channel during a storm which reached a 100-mile an hour velocity.

Hundreds of homes were flooded, many of them in London, some blocked by fallen trees and telephone and highway communications were disrupted.

FISHERIES RESCUED

Life boats rescued number of fishing crews. The Queen Mary, arriving from New York, was unable to land passengers at Plymouth and proceeded to Southampton.

Waves 80 feet high struck Blackpool, Lancashire, and the protective sea walls just built at Aberystwyth were destroyed and a number of houses were washed away, wrecked at Fishguard. A bridge collapsed at Cricieth. A bridge collapsed after a train carrying 60 children crossed it.

CHILDREN BURNED

Two children, Barry, four, and his sister, Alma, two, were burned to death when the wind blew the roof off a trailer in which they lived, overturning an oil lamp. A seaman engaged in unloading wheat was severely burned when a swaying beam hit him in the face.

One person was killed when a wall of a house he was building was killed in the collapse of a building at Stroud, Gloucester, and a woman was severely burned.

A woman was killed when a wall of a house she was building fell on her. Three-year-old Susan Cary Saunders.

When the family of film notables will be in the University of Virginia, the students will have an affiliation as patients, depends on the condition of Saunders, only member of the family actually receiving medical treatment.

FAY WRAY

CHARLOTTESVILLE, Va. Nov. 24.—Fay Wray, the cinema star who comes from the little town of Charlottesville, and John Monk Saunders, her husband, agreed today they will separate. They have been married three years.

They will effect a reconciliation or seek legal separation. If reconciliation fails they will go to court to decide their future.

TORONTO MEN JAILED IN N. Y. NICKEL SWINDLE

TORONTO, Nov. 24.—Meyer Bremer, president of Meyer Bremer Securities Corporation, and Leopold Bochner, 42, a partner, were arrested here Wednesday on charges of theft of \$40,000 in an alleged New York nickel swindle.

Arrest was made at the request of the New York District Attorney, Thomas E. Dewey. Police said the amount of the total amount involved in the "swindle" was \$26,000 and that Freeman Bernstein was arrested in Connecticut on charges similar to those facing Bremer and Bochner.

Earlier hearing of the two men was set by Judge Daniel G. Connell for Dec. 1. Bail for the two was fixed at \$25,000 each.

The arrest of the two Toronto brokers is that in March, 1936, at New York they stole \$26,150 from the Minotaur Corp., a division of Minotaur Steel and Metals Co., Ltd., and other New York Corporations.

Small charge is they stole \$21,000 from the same complaints filed in 1936.

Chief of detective said charges against Bremer were based on a nickel to Italy by way of Germany during the Ethiopian war. He said he had paid for the metal but shipments made to Hamburg, Germany, were scrap metal allegedly purchased at a Toronto junk yard.

Orders From Berlin

The smooth running of the appearance policy has been disturbed again—by demands from Berlin that French newspapers be compelled to stop criticizing Der Fuehrer and his persecutions. Paris despatches say the French cabinet bowed to the demand and prepared the prohibitory decree, but that the Minister of Justice refused to sign it. If the report is correct France will likely have another Minister of Justice—and, a little later on, another cabinet.

The next response to the friendly overtures may be a demand upon Mr. Chamberlain to muzzle the press of Great Britain. That would be in the line of logic, if this term may be associated with an attempt by one government to restrict the civil rights of residents of another country. The people of Great Britain have no reason to expect immunity if the people of France are to be bossed from Berlin. Appearance as understood there means letting the dictator do what he likes and saying nothing about it.

An All-In Defence Scheme

At a press conference at Washington, President Roosevelt urged that the countries of North and South America band together for united resistance should an attempt be made by any of the aggressor Powers to obtain a foothold in either continent. To which end, he suggested, the United States should construct an air force beyond its own direct needs, large enough to give effective help to any of the American countries if attacked, and therefore large enough to discourage any predatory ambitions the aggressors may have toward these continents. In short, the President proposes that the Monroe doctrine be endorsed by all the countries from Canada to the Argentine, and backed by suitable preparations for joint enforcement should that become necessary.

Canadians will warmly welcome this proposal, not only because Canada is geographically more open to attack than any of the others, but because if aggression gained a base anywhere in this hemisphere, no part of it could be safe. Against the modern machinery of war, regional defence is the most effective possible to the countries in our western world, perhaps the only effective kind.

There are a good many bridges to build before this ideal can be realized. Relations between the United States and Mexico are hardly cordial, as a result of the confiscation of oil wells in the southern republic, the oil from which is now being sold to Italy. Nazi influence is already strong in Brazil and active in other parts of South America. Whether the "entente" is even possible on the broad scale suggested will not be known until the Pan-American Congress is held at San Francisco. At which conference—it is significant—Canada is to be represented.

Substance and Shadow?

Hon. Dr. Manion is not quite sure that Canada is not trading the "British substance" for an "American shadow" in the new trade agreement. But he is quite sure "substance" is the correct word for concessions Canada is relinquishing in the British market? The chief of these concessions is the preference of six cents a bushel on Canadian—and other Empire-grown wheat—a preference that was created by imposing a tariff upon foreign wheat, and which Britain could abolish without Canada's consent if that were thought to be profitable. While Canada consents to the removal of this barrier against United States wheat entering Britain, it could not keep the barrier up if Britain chose to remove it. Britain being anxious to secure easier entry into the United States, that particular item in the list of preferences enjoyed by Canada can hardly be called dependable in any way.

swamped in Empire-grown wheat, how could a tariff against foreign wheat entering Britain either raise the price or better materially the chance of selling Canadian wheat there?

Australia, it will be noted, while not directly concerned in the bargaining at Washington, consented to the abolition of the wheat preference rather than hinder the negotiations. Apparently the Australian Government does not set much, if any, actual value on the preference; and Australia might be supposed to benefit from it more than Canada since Canadian wheat is of preferred quality.

Whatever the easier entry for Canadian products into the United States may amount to, it rather looks as though the wheat preference in Britain is more "shadow" than "substance."

Editorial Notes

President Roosevelt and Canadian newspapermen have something new in common. Both have been made recipients of the highest compliment within the gift of the journalistic defenders of Nazi persecutions—their unqualified abuse.

Emil Ludwig, the famous biographer of Napoleon and Bismarck, names President Roosevelt and Premier Mussolini as the "world's two outstanding statesmen at the present time." Of the two he could not decide which is the greater. He could, of course, succumb to Herr Hitler's advice in the matter!

Mr. Cordell Hull observes that the Japanese reply to his note of October 6th "is not responsive to the position of the United States" as therein set forth.

A rather neat way of acknowledging re-

ceipt of a point-blank refusal to pay any more attention to U.S. representations than to the treaties by which the rights of U.S. citizens were promised recognition.

Whatever it may signify, the Chinese forces seem to have staged a "come back" in the southern area. Shanghai despots say they are only a few miles from Canton and that the Japanese advance in Central China has been stopped. This may be only the out-working of the plans of Chiang-Kai-Shek, or it may mean the Chinese have stopped retreating because there isn't much more territory behind them.

Rumania is negotiating a \$100,000,000 loan in London, mainly to buy armaments. The announcement is daring, to the point of being indiscreet. The way things are trending in the Danubian basin, any small country there that plans increasing its defences had better do it quickly and on the quiet. Notice that Rumania intends to replace Czechoslovakia as a barrier in the way might precipitate the "march to the east."

The Passing Show

By J. S. COWPER

While a certain mayoral candidate in Edmonton was winning votes by disclaiming the Ghost scene from "Hamlet," men with picks and shovels were busy in a screened portion of Westminster Abbey, trying to whitewash the grave of Edmund Spenser as answer to the question, "Did Will Shakespeare write the plays?"

WAKE UP YOUR LIVER BILE—

And You'll Just Get Out of Bed in the Morning! Retail to go

The Liver should not take two pounds of bile to get it moving freely again. If this has to be done, then you will be paying your stomach. You get constipated, flatulent, when over 700 members of the church group at the provincial meeting of the Ukrainian Catholics of Alberta. In the evening, the church group celebrated the proclamation of the independent Ukraine in 1918 was presented, when four choirs from Edmont, Lethbridge, Red Deer and Fort Macleod took part. Early Monday morning their high masses were followed by a banquet.

PROFIT SHARE FOR LABOR IS GREEN'S URGE

Workers Must Be Considered In Plan To Solve Economic Problem

WASHINGTON, Nov. 24.—William Green, president of the American Federation of Labor, proposed Wednesday collective bargaining be extended "as rapidly as possible" to include all engaged in labor—men and women, its regulars—over whom a share in the profits of business.

Touting this before a United States Senate finance sub-committee, engaged in a survey of profit-sharing plans, he said labor cannot approach such programs unless it gets a voice in working them out, as well as in establishing the wages that result.

He expressed, too, "unalterable opposition" to any use of the federal power to pass "to promote profit-sharing plans" or to amend to the social security act giving tax credits to employers who establish such plans.

Green justified, chairman of the taxation committee of the national AFL, the opposition of his group to such legislation.

The three retiring members of the AFL executive committee, Joseph Philipps, merchant; Norman D. Minow, engineer; S. F. Day, lawyer, all of New York, were present.

Green, 71, a former carpenter, did not stand for re-election.

What To Do

By Phyllis Belmont

While there is always lots of fun at our dinners, there frequently is a deadly interval while dinner is served. What can one do about it?

MOTHER.

Answer—If you have never played the matzo and bottle game, for instance, by all means try it. All that is needed is an ordinary milk bottle and a box of kitchen matches. The bottle must not be on the floor or on a table, as it requires a firm foundation. The trick is to see if many matches can be lit from the same bottle neck. Give each person the same number of matches—twenty-five or thirty. If the bottle is in the game by placing one match over the bottle neck. Each player, in turn, tries to light as many matches as possible off his matches and with the game. If all hands are steady, the slender foundation of matches will be broken by any fashion just as long as they stay there, soon assumes astronomical proportions. If the bottle is one dropping matches inside the bottle must accept a match from each person who has dropped one inside. Any person who keeps matches off the bottle top must take all that drum. A prize may be presented to the winner.

MOSLEM RITUAL MARKS FUNERAL OF TARRABAIN

Mohammed Merchant Is Buried After Impressive Service At Mosque

Marked by Moslem rites, the funeral of Al Tarabain, 58-year-old Moslem merchant, was held Thursday afternoon from the mosque—one of the best known in Canada—to the Beaufort cemetery prior to services for those of the faith. Tarabain died here Monday from a heart attack.

Serious and quiet, he lay in Foster & McGivney's funeral chapel where the body was washed and prayers said. Each friend paid his respects, and the mourners stood in short distance, changing hands every two steps. High rituals of the Arabic service were observed in the Mosque of Islam at 102 street and 108 avenue which was rushed to capacity for the service.

HIGH PRIEST

Imam Iman, high priest of the Edmonton mosque, read the funeral from the Koran and conducted the prayer. The service was attended by mourners who wished to speak to the deceased's memory to come forward.

Several high-ranking officials of the Arabian Muslim Association told of the great service Mr. Tarabain had given to the community and the people with whom he came in daily contact in his large business.

CHEER MOURNERS

Armenian mourners were Mohamed Asaf, Mohamed Darvish Teba, president of the Armenian Mission Association; Najib Arshay, treasurer and other officers of the organization.

Court Sustains Appeal Entered In Fire Hearing

Appeal by Ernest Munsterman, Roslington district farmer, against conviction of \$25 fine imposed on him by Magistrate T. G. G. Gribich, was successful in District Court Wednesday. His Honor Judge J. L. Lyle, presiding, ordering the conviction to stand.

He was convicted on a charge of permitting fire to pass from his land into an adjoining farm.

C. Becker, counsel for the appellant, submitted that under the circumstances the magistrate's finding that fire was a prequel to guilt in permitting the fire to escape from his land and placed Mr. Munsterman in jail was erroneous. The witness stand to testify that they did not know of the fire until it had started. A RCMP officer, however, had specified the fire the day following its being reported and was unable to determine on whose land it had started.

President

ANGUS McDONNELL
President of the Northern Alberta Pioneers and Old Timers' Association, is holding a ceremonial banquet and stand-up at the Macdonald hotel on Thursday night.

He was speaking on "Is Canadian Unity Possible?"

NATIONAL POLITICAL

Such a question, Mr. Irvin declared, "would analyze national problems fairly, dispassionately, and non-politically."

"Australia has given Canada a good lesson," he remarked. "In Australia there is a federal grants commission. That body sits annually to consider representations from the states, states that themselves entitled to subsidies or other concessions."

"In Australia," each year the amounts of the subsidies to be paid to individual states.

"In my judgment," Mr. Irvin asserted, "the best way to approach a federal grants commission is to have an over-riding question of conviction and sentence on a charge of driving a motor vehicle with a load of dynamite across the highway over which he was travelling."

He said that a permit had been granted to the Menees Company for which the company's appeal was working to train loads up the highway to the charge against the driver. On the other hand, Mr. Becker, counsel for the appellant, asked that the conviction be quashed as it was evident that no one had the police been aware that the issue of the permit was being considered after the accident.

Judge Crawford held that a technical offense had been committed in failing to give the permit to the Crown had to sustain the magistrate's judgment. He remitted the fine.

Mr. Irvin criticized the tendentious statements of members of the provincial government and thousands of private citizens to express their opinions on the home of the fifty big shot and to regard these provinces "as centres of revolution on exertions of the parties."

"That, of course, is a very one-sided picture—exaggerated even in its exaggeration. It overlooks the contributions of Alberta and Quebec have made to the development of the province in men, money and in money," Mr. Irvin submitted.

Alberta's problems are due not only to outside influence, as is also to public and private mistakes right here in Alberta," he concluded.

Judgment was reserved in the supreme court action brought by Mrs. E. F. Ewing against the Canadian National Railway Co. Mr. Justice A. F. Ewing ruled.

Mrs. Frame is seeking \$3,000 damages for injuries received and damage to her automobile in an accident on the C.N.R. at 101 street for crossing between 119 and 111 avenues on 104 avenue on Feb. 22 last.

It is alleged by the plaintiff that the railway company was negligent in permitting a box car covered by a tarpaulin to roll off the track away. The railway company denied negligence submitting that the box car had been secured by the course of switching operations and was only on the avenue for a very short while while a "cut off" was being made.

M. L. Friedman acted for the plaintiff, and Nell MacLean, K.C., and B. W. Kane for the railway.

GRANTS BOARD WOULD FOSTER CANADA UNITY

Commission Could Give Provinces Fairer Deal, Irvin Declares

Canadian unity would be promoted by having a body similar to the Australian Grants Commission serve the major aspects of federal policies upon provinces and also recommend the amount of provincial subsidies required.

This suggestion was made Thursday night to a meeting of the Rotarians at the Club, the Edmonton Chamber of Commerce at the Macdonald hotel by Mr. Irvin, former chairman of the committee which submitted an exhaustive report to the Royal Commission on Federal-Provincial relations.

He was speaking on "Is Canadian Unity Possible?"

Draft Pension Plan

A. A. CAMPBELL
Commissioner of Finance

With only a few minor technical details to be reviewed, City Solicitor Garside and Comptroller Campbell have completed drafting of a by-law providing a compulsory pension plan for city employees. The by-law will receive second and third readings at next Monday's meeting of city council.

Pension Plan Now Recommended For Adoption By City

Civic finance committee Wednesday night approved a compulsory pension plan for the city's 1,617 employees and unanimously recommended that council pass a by-law putting the plan in effect.

Mr. Campbell told the committee that the plan was designed to meet the needs of the city's employees.

Although approved in principle by council October 11, the plan was amended following recommendations of committee members.

A by-law was drafted and given first reading at a special meeting Monday, then sent to city council for second reading.

Mr. Campbell said the plan would receive second and third readings at the next council meeting.

Mr. Paterson replied that he felt any objection to a concrete pension plan by city employees would be overcome if the majority vote, will become effective.

LONG DEBATE

The by-law was drawn up by City Solicitor Thomas E. Garside and Comptroller A. C. Campbell and debated for six hours Wednesday.

Representing the junior street railway workers, Mr. Campbell stated his objections to the pension plan.

Mr. Paterson replied that he felt any objection to a concrete pension plan by city employees would be overcome if the majority vote, will become effective.

OBJECTIONS

W. Templeman of the electrical workers' union, George Kirkwood of the telephone workers also objected and urged a plebiscite.

Mr. Campbell told the committee that the terms were vague and that the proposed pension would interfere with the recent trade treaty with the legislature, at its special session, endorsed a resolution advocating a pension plan for city employees in view of the completion of the recent trade treaty with the legislature.

Other matters of mutual interest to the Dominion and provincial governments will be discussed.

The Inquiring Reporter

Catching sight of workmen repairing buses in the funny light of the street lamps, a reporter for the newspaper, who had been standing in his community, became the object of some interest in Alberta cities are a little different.

In the course of a family row in Poland, the husband terminated the discussion by trying to yank his wife's hair. She had just finished off with a good solid closed fist punch, so damaging the woman that she needed the attention of a doctor.

Mr. Steele said his organization intended to keep working until the service was restored, and would pay \$500 a month pensions.

W. B. Quinn, of Local No. 568, a union of tram men, truck workers and drivers, also expressed the opinion that the lower paid men in the city service were eager for the pension plan.

They hoped it would expand.

PLACE LIMIT

Workers may put more than two per cent of their salaries into the fund if they wish, in order to increase their pension benefits.

Interest on contributions to the fund will be at four per cent, compounded annually, and the fund will be used to provide two per cent of their total earnings each year. The contributions will be deducted from pay cheques.

THANKSGIVING

On Thanksgiving Day, everyone
Turkeys, if they are still around.
Streetcar motormen, on account
of steering wheel, just stop and
say "Thanksgiving."

Eraser manufacturers, on account
of mistakes.

Candy dealers, on account of
plentiful work during the last few
weeks.

Golf balls, on account of going
for many drives in the open air.

If you don't eat vegetables, and
you get the neck, you're just out
of luck.

Curious World

FRESH WATER EELS
ARE NOT BORN IN
FRESH WATER.

All the eels inhabiting the rivers
and fresh-water bodies of America
and Europe are born in salt water,
at the mouth of the rivers and
near the island of Bermuda. After
birth, they start swimming and
migrating to the mouths of continental
rivers. When they are
grown up and ready to mate and
spawn, they go back to their birth
place to lay their eggs. They
deposit their eggs. Then they die
and never return to their river
again. The young eels will do
the same thing, and so on. It
takes them years to swim back and
forth, but instinct drives them on.

Answer: Right. Dry sand is heavier, measure for measure, than wet sand, up to a certain percentage of moisture. Sand, on becoming saturated with water, increases in volume all out of proportion to the amount of water added.

British Columbia Plans to Control All Public Utility Operations

3-MAN BOARD SUGGESTED TO HANDLE TRADE

Premier Pattullo Maps Out
Policy Giving Govern-
ment Wide Power

VICTORIA, Nov. 24.—Legislators and business men today studied a bill before the British Columbia legislature which would authorize the government to set up a three-man board to control trade.

The act, introduced by Premier T. D. Pattullo, would give the board broad powers over all forms of industries serving the public.

If adopted the act would affect:

Sixty railroads, street car systems, telephone and telegraph services, gas, electric and power plants, public water supply services, and numerous other public utility services.

The bill states that the ministries would be granted no greater power than the Legislative Assembly of the province.

TARIFFS EXEMPTED

Unaffected would be banks, operated by individuals or partnerships.

Heavy penalties would be imposed for violation of board regulations.

Municipal officials also would be liable to fine. A general power would be given to act "without cost for a maximum of \$5,000 on a public utility."

Any person who directs or directly or indirectly aids or abets the carrying out of the Act would be liable to a fine of \$300.

The board would have authority to enter premises to make inspection or to inspect documents.

Companies refusing to obey board orders would be subject to fine, ranging from \$20 to \$1,000, and would be liable to imprisonment for six months.

Companies would be subject to the same penalties.

Syracuse Star Defence Player Dies After Game

SYRACUSE, N. Y., Nov. 24.—Taken by death as his career was in the ascendant, Gerald "Jerry" Connell, young hockey and lacrosse player from Preston, Ont., rated by Connie Smythe as "one of the best prospects on the hockey horizon," was mourned last night in Canadian and American sports circles.

Connell, 21, died early yesterday, still retaining seemingly good health. Pending an autopsy, Dr. Daniel F. Luby expressed belief that he died by an embolism, resulting from the breaking of a small bone in the leg which Connell suffered in a lacrosse game eight weeks ago.

Connell played a hang-up game as the Syracuse Stars Tuesday night as they beat the Prairie Reds to a draw in the International American Hockey League game. It was a hard fought match and the young defenceman had been the victim of several rough scrimmages. He was in high spirits and apparently in full strength when he went to his hotel room.

Manager Smythe of Toronto Maple Leafs, who signed Connell to the Syracuse Stars, said in New York he had expected to have the young star up in the National Hockey League next season.

DEBT ACT HAS NO EFFECT ON NEW CONTRACT

Legislation Will Not Govern Mortgage Pacts,
Tight Beliefs

New agreements drawn up during the negotiations between creditor mortgage companies and debtors in Alberta will not be affected by the Debt Adjustment Act according to a special session of the legislature, according to R. D. Tige, K.C., president of the Alberta Loans Association of Alberta.

This opinion was stated Mr. Tige, as far as could be learned to a reporter from the members of the association, since none of the companies had written into their contracts any clause that their debts may be caused by the benefits of the Debt Adjustment Act to be waived by one or both parties.

The amendment to the act was designed to nullify any new agreements made after November 1, or all of the new agreements entered into by the mortgage companies under the act.

These agreements, it is estimated, have been waived by the creditors, though not approved by the Debt Adjustment Act.

None has been expressed, previous to the passing of the amendment, that the changes in the act were to affect the existing or all of the new agreements entered into by the mortgage companies under the act.

These agreements, it is estimated, have been waived by the creditors, though not approved by the Debt Adjustment Act.

The amendment might apply to a case where a different debtor consented to a permit being issued by the department of justice to proceed where other parties interested such as subsequent encumbrances are affected.

NEW BARRISTER NOW REALIZES LIFE AMBITION

The life-long ambition of Walter Beaumont was attained Thursday morning when he was admitted a member of the Alberta Bar by Mr. Justice W. C. Jackson.

A graduate of the University of Alberta, Mr. Beaumont, who is 41 years old, is the son of Mr. and Mrs. Hugh Calais Macdonald, K.C., to whom he has been articled, and who is a well-known lawyer and the practice of law under a partnership agreement.

Born in England, Mr. Beaumont came to Canada in 1924 as an instructor at the Vegreville agricultural school. For a number of years while studying at the University of Alberta he was both a swimming and wrestling instructor at that institution, author of a column of notes, and a general all-round athlete.

He graduated last year from the law school, and in addition to his LL.B. has a B.A. degree.

EUROPE CRISIS NEARING HEAD LECTURER SAYS

**British-Israel Speaker
States Jew Persecution
Shocks World**

"Many people in the world today accept the fact that the European crisis is coming to a head for the moment," said Dr. Alexander M. Macdonald, lecturer on which so many hours were based, does now seem to give much hope to the Jews, he said.

Dr. Macdonald spoke to Thomas N. Foster, of Australia, at a meeting Wednesday evening under the auspices of the British-Israel Ball Federation in the I.O.O.F. hall on 12th Street.

The Second Advent, How? Where? When?" was the topic of his talk.

He said that in Germany the persecution of the Jews has shocked the civilized world, for it is natural that when a people's leaders have been forced from them and now they are being forced to pay for the sins of their fathers, the murder of the secretary to the German ambassador in Paris by a young Jew.

BIBLE PROPHETY

"The prophecies are very interesting in the light of the prophecy from the Bible which reads: 'Behold, the days come, saith the Lord, when I shall send unto you (Jews) shall hunt them (Jews) after whom I will send hunters (and they shall hunt them) out of the mountains and through all the rocks of the earth, and bring them to the land I gave to their fathers,'" the speaker explained.

"In 1933, fifteen thousand Jews were turned out of Germany, and since that time over 50,000 Jews in Palestine, today are 40,000 Jews here in the Holy Land. Stopped in their tracks, however, is this as one of the signs of the times showing that the second coming of the coming year." They are President, E. T. Love, Quinton, managing editor; Alan C. Fraser, secretary-manager, Allan C. Fraser, Toronto.

SECOND ADVENT

"The question is frequently asked, 'Is the second advent near and will the second advent take place?' The Biblical prophecies indicate that the general resurrection will witness this spectacular event; for speaking of these things, Jesus said, 'Behold, I tell you a mystery: we shall not all sleep, but we shall be changed, in a moment, in the twinkling of an eye, at the sound of the trumpet, the dead shall be raised incorruptible, and we shall be changed.'

"As 54 years have already elapsed since the beginning of the Great War, this would only a short time before the second advent of the prophet, culminating in the second advent. This would not mark the end of the world, but the beginning of a new and better age on this earth, and of spiritual dominion of Jesus Christ."
